

# AerPRO CEILING PANEL

## EFFECTIVE AIR PURIFICATION

The AerPRO ceiling panel gives us healthy air, and is effective in fighting bacteria, spores, viruses and fine dust particles. The AerPRO ceiling panel is a professional air purifier. It purifies and disinfects the air in a space through tried-and-true technologies including UV-C light, titanium dioxide and ionization.

### BENEFITS:

- Offers the most improvement in air quality.
- Effective addition to the measures to create a 'COVID-safe' environment.
- Purifies the air, cleaning it from microorganisms, fine dust particles, and pollen.
- Not harmful for the environment, safe to use (no ozone is used or released).
- Neutralizes unwanted smells.
- Ensures cool and healthy working and common spaces.

CONSIDERABLE IMPROVEMENTS IN AIR QUALITY

QUIET OPERATION

DESIGNED FOR SAFE 24/7 USE

VERY GOOD PRICE/QUALITY RELATIONSHIP

### HOW THE AERPRO CEILING PANEL WORKS

The AerPRO ceiling panel disinfects the air in spaces up to 75m<sup>3</sup>. Placing more devices ensures filtration for larger spaces. The AerPRO ceiling panel is compatible with every ceiling system. The air is suctioned by a very quiet ventilator and

placed in a space treated with titanium dioxide as photocatalyst, and where two Signify UV-C lamps of 16 watts each disinfect the air. This kills viruses, spores and bacteria, and the combination of titanium dioxide and UV-C light reinforces the action of the light. Then, the already disinfected air passes through an ionizer, which blows negative ions into the space. The air leaving the AerPRO ceiling panel is healthier for everyone in that space.

Discover the unique combination of the AerPRO ceiling purifier with the **AL-KO AIRSAFE**, for effective protection against aerosolized viruses.

### Technical information:

AerPro
Suitable for spaces up to 75 m <sup>3</sup>
Maximum air flow 125 m <sup>3</sup> air per hour
UV-C Lamp 2x 16 watts
